With lightning speed
World's under my feet
Riding the sky
Horsepowers cry

With burning heart
Press button 'start'
You mustn't slow down
You'll fall behind

Horsepower
Running and flying devilish angel
Horsepower
Only you and the divine wonder
Rolling wheels
Ride the wind and climb the hills
Silence seems to be dead
By the roar of horsepower

Come on! You're slow!
You mustn't say NO!
We're chasing the light
Just follow me tight

Forget crawler lane
It's just a game
Of screaming pistons
Tires grinding stones

Horsepower
Running and flying devilish angel
Horsepower
Only you and the divine wonder
Rolling wheels
Ride the wind and climb the hills
Silence seems to be dead
By the roar of horsepower
