

Halor "Hurricane"

Visit "[Hurricane](#)" on [MotoLyrics.com](#)

Riding on roaring winds, facing the future
The bone Å-breaking power leads to the other side
The pure metal gives us the strength to this life
Won't give up till the music unites

Time is a lightning, it' running so fast
But we are free now, let's ride through the universe
We take the chance that's the way, so it's right
This is our real life what we have to find

After all bad things I want to find my way
When all of my dreams seems slowly fading away
I follow the sign and I know there is no return
Now it is time to start when my heart begins to burn

Like a mighty hurricane
Rising as high as we can
It's the path we want to run
We don't want to change our life
Keep together to survive
All our fears seems to be gone

Time is a lightning, it's running so fast
But we are free now let's ride through the universe
The pure metal gives us the strength to this life
Won't give up till the music unites
