I made it clear time after time. I'm kicking the negs and  
I'm losing my mind. I'm gonna watch you throw it all  
away 'cause you don't listen to a word I say. Open your  
fucking eyes. This is my stop, hope you enjoyed the  
fucking ride. Listed M.I.A. Killing some time, looking for  
a better way. You want it? Yeah, you fucking got it.  
Choke on your words because they didn't mean shit.  
You'll never get the best of me. You cut my throat but  
I'm watching you bleed. How can you keep your self  
respect when you can't even close your fucking legs?  
This time I'm as good as gone you fool. Given the  
choice, I'll take the long road home
