Close the door and run your eyes
I hope you never glamorize
The bad times, oh, the bad

She will run and she will hide
And I will never understand
Anything

Treat you bad and treat you right
Given everything
But I will be alone inside the box
I wish you well, without me

Whether or not you make it
I'll never see
I'll be right here
Safe and free

There I was
Taken all that you had
But I will be right here
Safe and free

And you will shoot up and relax
You're in between
Close the door and scream to me
And swear you'll never leave behind
Anything

Treat you bad and treat you right
Given everything
But I will be alone inside the box
I wished you well, without me

Whether or not you make it
I will never see
I'll be right here
Safe and free

There I was
Taken all that you have
But I'll be right here

Safe

Taken it in
You know that it's wrong
Shootin' it up
You know that it's wrong

I asked you again
You said that I'm wrong
You told me I'm wrong
I'm wrong

Treat you bad and treat you right
Given everything
Swear you'll never, swear you'll never
Leave behind anything

Without me
Stay here by me
