"On The Edge Of Honour"

Led by temptation into the underworld
To absence of season and time
Soldiers of fortune soldiers of the night
Back to back ready to fight
Enchanted gardens where evil slipped away
Through darkness and fire and rage
Uncanny demons will dance upon your grave
As soon as you become their slave

Surrender or fight, there's nowhere to turn
The bringer of light, where are you now
Forever our hearts will burn, yeah

Immortal riders, protectors of the earth
Lost in the abode of the dead
Misled through darkness and misled by desire
Inside the midst of the fire

Surrender or fight, there's nowhere to turn
The bringer of light, where are you now
Forever our hearts will burn

Fallen angels arise from your graves
Free your spirits and unite
Before the blood of the unicorn colors the night
From the ruins of hell we shall rise
On the edge of honor we see the light
Of the unicorn soaring the night

Born to conquer the fight
Here we stand with the future in our hands
Through fire we rise to touch the sky

Seeker of danger it's too late to withdraw
Our journey has come to an end
Let's turn together for trust in thy son
Victory will march in to us

Surrender or fight, there's nowhere to turn
The bringer of light, where are you now
Forever our hearts will burn

Fallen angels arise from your graves
Free your spirits and unite
Before the blood of the unicorn colors the night
From the ruins of hell we shall rise
On the edge of honor we see the light
Of the unicorn soaring the night
