were we friends? were we lovers?  
does it matter - one or the other?  
but faces fade, the trail grows cold  
did something happen - or was it a phase?  
did someone tell me - or was it a phrase?  
did i believe stories i told?  
i must be getting old

CHORUS

nights i believe i'll live forever  
i'll pull the ragged sky over my head  
and dream weather  
day to day  
dollar to dollar  
the well runs dry -

a tree grows taller  
a home is bought  
a house is sold  
i must be getting old

CHORUS

big as the sky  
endless as ocean  
saved from despair by believing in motion  
the jagged edge seems to unfold  
i guess i'm getting old  
CHORUS
