spoken) Mmm, I think I'm gonna have to call

in sick

Yeah...hey Mr. Supervisor, I think I'm gonna

have to call in sick na na na na...

Can't leave my woman like this...

oooh...

If there's one thing I can't stand, its leaving you

so early in the morning.

This nine to five I have is surley getting to me

for the third time I think I'm gonna have to call in sick

If I leave you now I'll be loosing my mind, my mind.

Chorus

Hope we never get tired, and I never

have to go to work, no one knocking on the door

disrespecting the no disturb sign.

No baby crying, no horn blowing

just the whisper of our voices all day long

na na na na baby

A man who don't sweet treat his woman

surley wasting a lot of time,

she might not say it but she needs

tenderness in her life.

When I look in your eyes baby,

I see clear as a warning sign,

I gotta take some more time off

and give you extra love na na na na

hope you like it.

(chorus)

Oooh won't you come a little closer..

thats it my orange juice,

reach over and hold me baby, just like that

just like that, we're gonna be making love, all

through the day time (hope you like it baby)

(Chorus)

Whispering sweet, sweet prayers of love...

(Chorus x 2)

All day long, all day long now, all day long
