[A] - Anita]

[R] - Ray]

[R:] Now it's time to break it

[A:] Come on Come On

Come on Come on

[R:] Break it down

[A:] I wanted to break your chain, Yeah

Make the right choice in life

You gotta do it now

You gotta to do it now

You gotta to Ah Yeah

You gotta Oh

[R:] 2 Unlimited

Break it

Break it

[A:] Break the chain, break it for me

Free your spirit, set your soul free

Break the chain, feel it in your hands

Break the chain so nothing can hold us back

[R:] If you gonna break the chain, think of the main  
source ( source )

Do your job and take the right course ( course )

Don't let your mind don't play no tricks in the world; alot  
of things to face

Your life in this world goes up and down

You gotta pay attention to stick around

Get this one thing straight in your brain

Set yourself free and break that chain

[A:] Break the chain, break it for me

Free your spirit, set your soul free

Break the chain, feel it in your hands

Break the chain so nothing can hold us back

[A:] Break the chain, break it for me

Free your spirit, set your soul free

Break the chain, feel it in your hands

Break the chain so nothing can hold us back

[A:] Your future is in your hands...  
[R:] Bass Bass  
[A:] Break or fake or make your chain  
[R:] And break that chain  
[A:] Come on Come On  
[R:] Break it Break it  
[A:] Come on Come On  
[R:] Break it Break it  
[A:] Let nothing stand in your way

[R:] So get yourself together 'cause the music makes  
you better  
You gotta rearrange, stand up and make that change  
'Cause if you don't, then you won't and you never  
gonna see the perfect life in reality  
Can you see what I mean, can you hear I what I say  
Can I break it Ah Yeah ( Ah Yeah ), Yes I may  
On a mission we go, sunshine or rain  
Set yourself free but you gonna break that chain

[A:] Break the chain, break it for me  
Free your sprit, set your soul free  
Break the chain, feel it in your hands  
Break the chain so nothing can hold us back

[A:] Break the chain, break it for me  
Free your sprit, set your soul free  
Break the chain, feel it in your hands  
Break the chain so nothing can hold us back
