Come on!
Come on!
Come on!
Come on!
Praying for the good times
So long to the bad times
Baby are you ready here we go!

Turn you up there's no limit
As long as you're in it
Give it all you got just let it show

Are you in for the fast ride
I'll take you out on the wildside
Are you in for the fast ride
Living life on the faultline
Are you in for the fast ride
I'll take you out on the wildside
Are you in for the fast ride
Do it, do it, you can do it

Never ever never ever surrender
Let all your dreams come true
Never ever never ever surrender
We will make it through
Never ever never ever surrender
If you want it too
It's all up to you, don't ever surrender!

Oh yeah - Never surrender

You've got the power
It's yours to devour
Go where you have never been before
Never stop when you're winning
It's only beginning
You don't have to fake it anymore
Are you in for the fast ride
I'll take you out on the wildside
Are you in for the fast ride
Living life on the faultline
Are you in for the fast ride

I'll take you out on the wildside
Are you in for the fast ride
Do it, do it, you can do it

Never ever never ever surrender
Let all your dreams come true
Never ever never ever surrender
We will make it through
Never ever never ever surrender
If you want it too
It's all up to you, don't ever surrender!

Never surrender!
Never surrender!

Do it, do it !
You can do it!

Never ever never ever surrender
Let all your dreams come true
Never ever never ever surrender
We will make it through
Never ever never ever surrender
If you want it too
It's all up to you, don't ever surrender!

You don't have to fake it anymore

You'll never surrender !
