[A:] Tuning into something wild

[A:] Like a comet from space  
Like a slap in the face  
You can feel it coming  
Like a push in the back  
Turning white into black  
You're feeling something wild now!

[A:] You're feeling something wild now!

[R:] Hey precious, hey burning child  
Time to tune to something wild  
It's new, it's hot, it's all you're not  
Don't turn back, it's all we've got  
You're breathless, you're out of step  
Time to learn just what is hip  
If you think you're in a jumble  
That's the way the cookie crumbles

[A:] Tuning into something wild  
Tuning into something

[A:] Like a comet from space  
Like a slap in the face  
You can feel it coming  
Like a push in the back  
Turning white into black  
You're feeling something wild now!

[R:] Wilder and wilder

[A:] You can feel it coming!

[R:] Well, maybe so-- we're in a mess  
World gone wrong but don't forget  
There's a groove that makes you wonder  
How the hell they sample thunder  
It's glorious, it's boom, boom, boom  
Bless the noise that shakes the room  
If you think we're getting milder  
Brace yourself for something wilder
