Boom Boom
Ooh, ya ya
Each day I'm waiting for another chance to see your
face
Each night I'm praying that tomorrow brings back your
embrace
I know, you know, that you're the only one I need

My heart goes boom, boom when I get next to you baby
Ooh, ooh, cause of what you do
And every single day, and all the love you bring
Makes my heart get a funny little feeling
Makes me wanna keep dreaming
Say you're mine and you're never leaving
Baby, you're the only one I need
Boom, boom, boom, ya
Hey, hey, hey, ah ya

The only one I want

When you call me baby, you completely turn my heart
all around
And boy when you touch me, you just take me high
above the ground
I know, you know, that you're the only one I need

CHORUS

Each day I'm waiting
Each night I'm praying
For your love one more time
And with your arms all around me
There's no mistaking, oh baby
You're the only one I need
Hey, hey hey
Ya ya ya
Hey hey hey
You're the only one, the only one, baby

CHORUS
