Say Goodnight not goodbye you will never leave my heart behind.

Like the path of a star I'll be anywhere you are. In this heart that lies beneath the colds in this secret place uncertain keep my light in your eyes say good night not goodbye. Don't fear when you dream waking up was never what it seemed. Like a chill very deep like a promise meant to keep you are everything you ought to be so just let your heart reach out to me. I'll be right by your side say good night not goodbye. You are everything you ought to be so just let your heart reach out to me. Keep the light in your eyes say goodnight not goodbye say good night not goodbye.
