Friend, it's getting late
We should be going
We've been sat here beneath
These flickering neons for hours

While I am cracking their code
You are deciphering me
For I am a mystery
I am a locked room in a tall tower

Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong, we belong

Your telescope eyes see everything clearly
My vision is blurred
But I know what I heard
Echoing all around

While I am tuning you in
You are deciphering me
Not such a mystery
Not such a faint and far away sound

Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong, we belong

It's love, it's love that holds us
We will be alright
It's truth, it's truth that shows us
If we'll walk in its light

It's love, it's love that holds us
We will be alright
It's truth, it's truth that shows us
If we'll walk in its light

Oh, can you feel the gravity falling?
Calling us home

Oh, did you see the stars colliding?
Shining just to show, we belong

Oh, can you feel the gravity falling?
Calling us home
Oh, did you see the stars colliding?
Shining just to show, we belong

Oh, can you feel the gravity falling?
Calling us home, we belong
Oh, did you see the stars colliding?
Shining just to show, we belong
