Walking, stumbling on these shadowfeet  
Toward home, a land that I've never seen  
I am changing: less and less asleep  
Made of different stuff than when I began  
And I have sensed it all along  
Fast approaching is the day

[CHORUS 1]

When the world has fallen out from under me  
I'll be found in you, still standing  
When the sky rolls up and mountains fall on their knees  
When time and space are through  
I'll be found in you

There's distraction buzzing in my head  
Saying in the shadows it's easier to stay  
But I've heard rumours of true reality  
Whispers of a well-lit way

[CHORUS 1]

When the world has fallen out from under me  
I'll be found in you, still standing  
When the sky rolls up and mountains fall on their knees  
When time and space are through  
I'll be found in you

You make all things new  
You make all things new  
You make all things new  
You make all things  
You make all things

[CHORUS 1]

When the world has fallen out from under me  
I'll be found in you, still standing  
When the sky rolls up and mountains fall on their knees  
When time and space are through  
I'll be found in you

[CHORUS 2]

When the world has fallen out from under me  
I'll be found in you, still standing

Every fear and accusation under my feet  
When time and space are through  
I'll be found in you
