You and I, we're the same
just
build the walls in a different way
You say we're friends
but that's a lie
we're both shakin everytime
Um
Across the room
Keep a distance
Cause we feel closed in shame
Don't you think it's time we listend to the sound

Chours:
I see it in your eyes
I feel it in your kiss
We can move a million ways that words don't
understand.
It's easy to mess up
But baby it's in us
Cause I can't think of anything but getting tangled

Take my hand
Walk me home
aren't you tired of being cold to me baby
Our walls are down
my skin is thin
Cause I love you
I'll always let you win
Across the room
Keep a distance
But don't you think it's time we listen to the sound

Chours:
I see it in your eyes
I feel it in your kiss
We can move a million ways that words don't
understand
It's easy to mess up
But baby it's in us
Cause I can't think of anything but getting tangled

Oh in this room
All through the night
Tangled inside
I can't move without you next to me

Chorus:

I see it in your eyes
I feel it in your kiss
We can move a million ways that words don't
understand
It's easy to mess up
But baby it's in us
Cause I can't think of anything but getting tangled in
you

I see it in your eyes
I feel it in your kiss
We can move a million ways that words don't
understand
It's easy to mess up
but baby it's in us
Cause I can't think of anything but getting tangled in
you
