Oooooo....Oh oh.....Ooooo...oh oh....  
Oh, up with the morning, half with a photo cup  
I guess I'm leaving, I'm always leaving  
Oh, plans before my heart, keep it there it is hell,  
give me no no feeling  
Feel no feeling  
Keeps coming on, keeps coming on, keeps coming on  
It keeps coming on, it keeps coming on, it keeps  
coming on, keeps coming on  
Oh, everything's fucked, give me something to keep,  
keep keep from breathing  
Keep me from breathing  
Oh, flying in the bed, you go the keys to my heart  
and I got no feeling, I got no feeling  
I hope it's over now, I hope I catch some pills to die  
but we're succeeding, we're succeeding  
I know, I know, I know, I know I know I know, I got no  
feeling, I got no feeling  
It keeps coming on, it keeps coming on , it keeps  
coming on  
It keeps coming on, it keeps coming on, it keeps  
coming on  
I will leave, I will leave this place  
In my heart, no darkness space  
All my life, I've always found  
The returns, returns to sound
