Well they're an army of thieves, they've got everything
they need

But what about us?

What about us?

There's lies and deceit so hard to believe

But what about us?

What about, what about us?

What about us?

Because it's time after time we've stuck behind the line

What about us?

What about us?

And they won't admit defeat when it pulls you to the
street

So what about us?

What about, what about us?

What about us?

Oh go on, go on, go on, go on and break my heart

Oh go on, go on, go on, go on and break my heart

When it's under control from forces impossibly remote

What about us?

What about us?

And you're lying in your bed, you just couldn't get
ahead

What about us?

What about, what about us?

What about us?

Oh go on, go on, go on, go on and break my heart

Oh go on, go on, go on, go on and break my heart

Break my heart

Break my heart

Break my heart

I been living life so long

I know there's nothing wrong with this

Come on and break my heart

Break my heart

I been living life so long

I know there's nothing wrong with this
Come on and break my heart
Break my heart

I been living life so long
I know there's nothing wrong with this
Come on and break my heart
Break my heart

Well let's stay
This evil little world
Break my heart
Break my heart

Well let's stay
This evil little world
Break my heart
Break my heart
