Ooooh  
Alright  
Wohoho

I woke up feeling cold  
beauty queen by my side  
all I really know  
that I want to make love all night

and I got to say  
you're body got me so, mm ooh  
and I can't take it any more  
the things you do  
got me lose all my abilities

Let you're body cover me  
lose you're self all over me  
just get on top of me and  
never let it go  
(x2)

[chorus:]  
I wish that I always had you here you beside me  
cause you're the type I would like to spend my life with  
so I can't let you go  
cause girl I got to let you know  
that you're the only one for me  
(x2)

It's time to get it on  
I got to push my love inside  
I can feel you're heart beat  
and it feels more than alright

And I got to say  
I wanna hear you go, mm ooh  
lets take it over to the floor  
from head to toe  
my lips will roll  
im livin on my fantasy

Let you body cover me  
lose you're self all over me  
just get on top of me  
and never let it go  
(x2)

[chorus:]

I wish that I always had you here you beside me  
cause you're the type I would like to spend my life with  
so I can't let you go  
cause girl I got to let you know  
that you're the only one for me

Get you body close to me  
baby put a hold on me  
it's time to take it off

Let me put my lips on you  
let me do my things on you  
we're about to brake it off  
(x2)

[chorus:]

I wish that I always had you here you beside me  
cause you're the type I would like to spend my life with  
so I can't let you go  
cause girl I got to let you know  
that you're the only one for me  
(x2)

Ooaaoh  
I got to let you know baby  
Put your body close to me  
Alright..
