Oh oh, oh oh
Ooo whoa-oh

Oh oh, oh oh
Ooo whoa-oh

Something's wrong (yeah)
I can't explain what's goin' on
In my mind, ha-oh
I care for no one
But you tonight

Ooo, I gotta know your name
You're messin' with my brain
I might go insane girl
Nothin's right
I gotta know your name
You're messin' with my brain
Tell me girl
What are you doing to me

Ooo, I wanna be wit choo
Only you, in the spotlight
I just gotta find out
How to describe, you and I
Under the spotlight
Under the spotlight
The spotlight
Under the spotlight
The spotlight

Been so long (oh, oh..)
We used to be standing so strong
All this time, ha-oh
I've only had you in my mind

Ooo, I gotta know your name
You're messin' with my brain
I might go insane girl
Nothin's right
I gotta know your name
You're messin' with my brain

Tell me girl
What are you doing to me

Ooo, I wanna be wit choo
Only you, in the spotlight
I just gotta find out
How to describe, you and I
Under the spotlight
Under the spotlight

The things that you're doin'
You're runnin' the show
You keep me comin'
Back for more
All that I needed
Is you in my arms
Girl you are, under the spotlight
(Spotlight, spotlight, spotlight) (¡)
U-u-under the spotlight
(Spotlight, spotlight, spotlight) (¡)

Ooo, I wanna be wit choo
Only you, in the spotlight
I just gotta find out
How to describe, you and I
Under the spotlight

Ooo, I wanna be wit choo
Only you, in the spotlight
I just gotta find out
How to describe, you and I
Under the spotlight
Under the spotlight
The spotlight
Under the spotlight
The spotlight
