There's a place uptown where we hang around called  
Tootsie's Orchard Lounge  
There's always a crowd and the music's kinda loud at  
Tootsie's Orchard Lounge  
All the musicians are there so naturally the pretty girls  
come around  
And I can't forget a little girl I met at Tootsie's Orchard  
Lounge  
She told me that she love me and always would  
And things were going like I thought they should  
The guitar picker came strollin' by a very funny look  
came in her eye  
Now he's got her and gone and I sit all alone at  
Tootsie's Orchard Lounge  
If I'll ever love again I won't take her in to Tootsie's  
Orchard Lounge  
But if you want to stay keep your girls away from  
Tootsie's Orchard Lounge  
Cause any guitar man is a mighty big man at Tootsie's  
Orchard Lounge  
[ guitar ]  
Now he's got her and gone...  
Any guitar man is a mighty big man at Tootsie's  
Orchard Lounge
