Let's go again

Where we went last night

Let's go again, baby

Let's go do it up right

I know you got things to do

But everybody's expecting you

So let's go again

Where we went last night

(Where we went last night)

Let's rock again

Baby, don't be shy

Oh, let's rock, let's rock

Let's just set the house on fire

You don't have a thing to lose

So put on your dancing shoes

And let's go again

Where we went last night

(Where we went last night)

Baby, baby, don't forget

We're gonna dance

Til we're soaking wet

The band's gonna swing  
And the band's gonna rock  
And we're gonna jump  
All round the clock  
Come on, come on  
Come and go with me  
Well, come on, come on, baby  
You know I need your company  
Oh, baby, don't  
You feel so glad  
When you think  
About the fun we had  
So let's go again  
Where we went last night  
(Where we went last night)  
Eyeah, come on, come on  
(Where we went last night)  
Baby, baby  
Baby, don't forget  
We're gonna dance  
Til we're soaking wet  
The band's gonna swing  
And the band's gonna rock  
And we're gonna jump  
All around the clock

Come on, come on  
Come and go with me  
Yeah, come on, come on  
You know I need your company  
Oh, baby, don't  
You feel so glad  
When you think  
About the fun we had  
So let's go again  
Where we went last night  
(Where we went last night)  
Come on, come on  
(Where we went last night)  
Come and go with me  
(Where we went last night)  
Come on, come on, baby  
(Where we went last night)  
You know I need your company  
(Where we went last night)  
Let me hear you say yeah  
(Where we went last night)  
Can I come along with you  
(Where we went last night)  
Come on, baby, come on, baby
