If you see me with a great big smile at some party
where the fun runs wild
If tears start to flow and I fall apart please don't think
you broke my heart
It's just my funny way of laughin' yes my funny way of
laughin'
Your leaving didn't bother me
It's just my funny way of laughin' yes my funny way of
laughin'
I'm really happy as can be

If we meet on the street and a little bitty tear rolls down
my cheek
Please don't think it's because I'm blue or that I'm still
in love with you
It's just my funny way of laughin'...

Remember the day you left our place and how the tears
rolled down my face
It wasn't because you were leavin' me I was happy
because you were pleasin' me
It's just my funny way of laughin'...
