(What's gonna happen to the little folks who live in our house)

We've decided we can't work it out we might as well call it a day

We've agreed to disagree and go our separate ways
We just don't seem to get along we argue and we fuss
So we've agreed that the part as friends is best for both of us

(What's gonna happen to the little folks the little folks the little folks)

What's gonna happen to the little folks who live in our house

Since we've decided we can't work it out we might as well end this time

We fought enough and fussed enough and said too much this time

So we've agreed that the thing to do has set each other free

You'll go your way and I'll go mine that's best for you and me

(What's gonna happen to the little folks the little folks the little folks)

What's gonna happen to the little folks who live in our house

Maybe someday we'll look back and see how foolish we've been

Cause we might find it's the little ones who'll lose in the end

But maybe things are not so bad we're still in love you and I

And maybe we can work it out if we give it one more try
(You owe that much to the little folks the little folks the little folks)

We owe that much to the little folks who live in our house

(What's gonna happen to the little folks the little folks the little folks)
