When day is done I hurry home and get back in my bed
Cause only in dreams can I relive the things that she
once said
Once again she's in my arms and once again I'm king
So in a minute or three she would be with me
Somewhere in my dreams

I don't care about the weather let it rain or storm
Long as I'm somewhere in dreams and she's back in
my arms
I come alive when I'm asleep at least that's how it
seems
So if you don't mind I'll spend my time
Somewhere in my dreams

I don't care about a thing I just know that she's gone
But she comes back when I'm asleep and that's why I
go on
You can have reality kept on mean a thing
Now I've got to leave she waits for me
Somewhere in my dreams
