Verse 1:

I just can't get it through my head you love another now
instead

Can't make myself believe we're really through
I'm walking up and down the hall talking to a silent wall
I'll lose my mind before I'm over you

Chorus:

I think I've almost lost my mind I think about you all the
time
I'm going crazy yes I know and I don't have far to go
The way you treat me is a shame but I'll keep loving you
the same
I'll lose my mind before I'm over you

Verse 2:

I keep your letters I should burn
I wear your ring I should return
Yes there's a million foolish things I do
It makes me cry but you would laugh
To know I kiss your photograph
I'll lose my mind before I'm over you

Repeat Chorus
