(Karl Davis)

Won't you let the good book make you good, give it a
try today
Then all alone your way singing so bright and gay
The good book's a guide book this we know in it we
should believe
Heaven's blessings ask and you shall receive.

There's a little one room country church upon a hill so
high
They'd built it near the sky so God to be close by
When the congregation feel salvation they make the
rafter's ring
Happiness fills your souls when they start to sing.

Won't you let the good book make you good, give it a
try today
Then all alone your way singing so bright and gay
The good book's a guide book this we know in it we
should believe
Heaven's blessings ask and you shall receive.

--- Instrumental ---

In the little one room country church under the sky so
blue
You'll feel that God himself is sitting there with you
Both young and old will join in some to make you feel
so proud
Some may not sing good but they all sing loud.

Won't you let the good book make you good, give it a
try today
Then all alone your way singing so bright and gay
The good book's a guide book this we know in it we
should believe
Heaven's blessings ask and you shall receive...
