(Jerry Foster - Bill Rice)

Hurt me again the way you always do
Hurt me again I'm still in love with you.

Lie to your new love the way you lied to me
Wrap him round your finger till he loves you hopelessly
Keep and trust and continue right up to the end
And when you're tired of his love hurt me again.

Hurt me again the way you always do
Hurt me again I'm still in love with you.

I'm not the first you've hurt and I won't be the last
There'll be many others like all those in the past
I've got a lot of heartaches just waiting to the end
So anytime you're ready hurt me again.

Hurt me again the way you always do
Hurt me again I'm still in love with you.

Hurt me again I'm still in love with you...
