"Lovin' You"

Everyday darling come what may I'll go on loving you
the way I do
I could have spent a lifetime of loneliness I know
Just searching for a dream I'd never find
But now that I have found you I'll never let you go
I'll give you all the love that's in this heart of mine
Yes lovin' you the way I do I'll do anything to keep from
ever losing you
Everyday darling come what may I'll go on lovin' you
the way I do

No one has better reason to thank the Lord above
For now I know the reason that I live
No man has ever needed a woman's tender love
As much as I have needed all the love you give
Yes lovin' you the way I do...
I'll go on lovin' you the way I do
