Silver dew on the blue grass tonight how it shines in the
moon silvery light

Oh my darling far from me how I wish that you could
see

Silver dew on the blue grass tonight

The moon was softly shining on an old Kentucky home

The fragrance of magnolias filled the air

A lonely girl was writing to her sweetheart cross the
foam

May God protect you darling over there

To say how much she wish that he were there

Silver dew on the blue grass...

[trumpet]

Oh my darling far from me...
