You're mine for awhile till a new face appears  
And then you're no longer with me  
They call me a fool and laugh at my tears  
For they know I'll never be free.

Between fire and water that's where you got me  
I get burned every time I'm with you  
Between fire and water I cry an ocean  
'Cause without you I'm bluer than blue.

My love cannot die if you break my heart  
I'll want you the rest of my days  
I try to forget that each time I start  
I'm still but a slave to your way.

Between fire and water that's where you got me  
I get burned every time I'm with you  
Between fire and water I cry an ocean  
'Cause without you I'm bluer than blue.

--- Instrumental ---

Between fire and water that's where you got me  
I get burned every time I'm with you  
Between fire and water I cry an ocean  
'Cause without you I'm bluer than blue...
