I won't care how dark and drear my way may be  
I won't mind the cross to bear  
For I'm knowing God's on time he'll set me free  
But this I pray dear Lord, remember me.

Remember me when tears are folling down  
Remember me when trouble's all around  
And look down at the river of Jordan  
And calling the row, oh Lord, remember me.

--- Instrumental ---

I won't mind how low some bitter lots be mine  
To bear uncomplainingly  
I decided come what may I'll follow Thee  
But this I pray dear Lord, remember me.

I won't mind though I may go through waters deep  
Still his own my pray shall be  
If I'm right I know I'll gain the victory  
But this I pray dear Lord, remember me.

Remember me when tears are folling down  
Remember me when trouble's all around  
And look down at the river of Jordan  
And calling the row, oh Lord, remember me.

(And calling the row remember me...)
