Up until now you've been satisfied  
With the love that I gave to you  
Now the goin' gets rough you've had enough  
And all you can say is we're through.

It's been smooth sailing up until now  
We've kept true love in the flow  
Let me say it again our ship's comin' in  
So don't rock the boat.

Don't rock the boat let it keep sailing  
A few stormy seas a little cool breeze  
That don't mean our love's failing  
I promise you your dreams'll come true  
Don't you be givin' up hope  
Let the kisses begin, our ship's a comin' in  
So don't rock the boat.

--- Instrumental Guitar - Fiddle ---

The sun'll be shinin' when the stormin' is over  
And we'll go on like before  
We'll anchor our love beneath the clouds above baby  
I need you even more.

You've got a good captain with his hands on the wheel  
Who couldn't sail on if you go  
Let me say it again our ship's a comin' in  
So don't rock the boat.

Don't rock the boat let it keep sailing  
A few stormy seas a little cool breeze  
That don't mean our love's failing  
I promise you your dreams'll come true  
Don't you be givin' up hope  
Let the kisses begin, our ship's a comin' in  
So don't rock the boat.

Let the kisses begin, our ship's a comin' in  
So don't rock the boat...
