(Keep a moving keep a moving)  
We've been following the sun ever since the day began  
and we're weary  
(Keep a moving keep a moving)  
Tell the fading western light brings the shelter of the  
night so dreary.

Following the sun all day  
Move those mountains from our way  
Wheels are turning, hearts are yearning  
Following the sun all day, all day.

We don't know where we'll land  
It may be just around the bend the troubles hiding  
(Keep a moving keep a moving)  
But the sun is in the lead and that's all we'll ever need  
for guiding.

Following the sun all day  
Move those mountains from our way  
Wheels are turning, hearts are yearning  
Following the sun all day, all day.

Everyday and everywhere there's been  
Something in the air growing stranger  
(Keep a moving keep a moving)  
But we haven't heard a sound and the silence all  
around warns there's danger.

Following the sun all day  
Move those mountains from our way  
Wheels are turning, hearts are yearning  
Following the sun all day, all day...
