Though you have refused to see me my dear  
You'd rather I'd be all alone  
Still I can't forget the kisses we knew  
And the days when I called you my own.

But you found another and you loved him too  
My heart is broken I'm sad and I'm blue  
I am sorry we met it's so hard to forget  
The days that used to be.

--- Instrumental ---

Though you found another and you loved him too  
My heart is broken I'm sad and I'm blue  
I am sorry we met it's so hard to forget  
The days that used to be.

And though you weren't true I still think of you  
And your memory is so dear to me.

But you found another and you loved him too  
My heart is broken I'm sad and I'm blue  
I am sorry we met it's so hard to forget  
The days that used to be...
