Everything has gone wrong and the nights are so long  
Since you left us down here all alone  
Everyday seems a year and the whole world is drear  
It seems now I just can't go on.

Standing close by my side is our own little pride  
He misses your lullaby tune  
And his big dark blue eyes swell with tears as he cries  
Wont Mummy come back to us soon?

I planted sweet lilies for you dear of  
One on your grave neath the pines in the dawn  
And our baby each day kneeled with me as I prayed  
In memry of you dear old pal.

The angels will love you and keep you  
I know, 'cause they needed some one just like you  
To brighten the heaven around God's great throne  
And add a new star to the blue.

I'll watch 'er the baby and tend him with care  
And each night by his bedside I'll kneel  
And if tears do not stop me I'll sing him to sleep  
In mem'ry of you dear old pal.

All your big stakes and treasures I placed them away  
To me they mean more than a world  
And the baby's first curl to your picture I've tend  
In mem'ry of you dear old pal...
