Lonely train, lonely train, take me through the lonely  
rain

Take me where all broken hearts belong  
By your tracks, lonely tracks, there must be some  
lonely shack  
I can stay till all my heartaches gone.

Lonely train stop for me  
Down in lonesome valley for that's where I'll be  
Lonely train, lonely train, all that I have left is pain  
On the lonely train of memory.

--- Instrumental ---

Once I had everything, everything that made me sing  
And the love I thought would never end  
But someone came along, stole my girl and stole my  
son  
And my heart has never sung again.

So lonely train stop for me  
Down in lonesome valley for that's where I'll be  
Lonely train, lonely train, all that I have left is pain  
On the lonely train of memory...
