I met her in old Monterey on a night that was filled with  
romance

We listened to violins play sweet music that have us in  
trance

I knew you were mine from the start your eyes were  
mischeated and gay

As I kissed my Rose of the border that night down in  
old Monterey.

Let's go manana one night with a lifetime to live  
Sweet primadona my heart wanted only to give  
I won't forget you your though duty forbids me to stay  
I'll be that you call when the first petals fall  
On my Rose down in old Monterey.
