Lyrics for Album:

[Buy " " CD]

I love a gal who invented kissin' I don't recall her name  
But I do believe that gal should sit high up in the hall of  
fame  
Until she came along just think what we were missin'  
That's why today I'm shouting hooray for the gal who  
invented kissin'

She thought the fellows how to smooth instead of  
holdin' hands  
And she showed them how to steel a kiss like they do in  
foreign lands  
Until she came along just think what they were missin'  
Loved was very nice but as cold as ice to that gal who  
invented kissin'

She showed the girls how pucker up and roll their pretty  
eyes  
And she showed them how to kiss hello and how to kiss  
goodbye  
Until she came along just think what they were missin'  
They could only cook or read a book till that gal who  
invented kissin'

Mr Edison he invented the lights Mr Bell the telephone  
And Columbus found America their names're all well  
known  
But till she came along this world had somethin' missin'  
And I'm tellin' you there was nothin' to do till that gal  
invented kissin'

Now I've been out with a many a gal and the things all  
were so nice  
Some of them I kissed just once and other more than  
twice  
But if I had my wish the only thing I'm wishin'  
Is to make a date and stay out late with the gal who

invented kissin'

She ever knows how to kiss so fire and how to kiss  
goodnight

On every kind of hug and kiss she holds a copy rhyme

But if I had my wish the only thing I'm wishin'

Is to make a date and stay out late with the gal who  
invented kissin'
