"Rock In The Ocean"

Visit "[Rock In The Ocean](#)" on MotoLyrics.com

A rock down deep in the ocean means more than my
heart means to you
I don't know what changed your notion what makes you
do things like you do
You told me that there was no other but those words
have proven untrue
There's no use to help me further I'm lost like a cloud in
the blue
[fiddle - steel - guitar]
Like a wave that rise on the seashore for something
that never can reach
My heart to you doesn't mean more than a small grain
of sand on the beach
Like you toss a rock in the ocean to be lost like the
words of my plea

That's how you discarded devotion just like a stone in
the sea
