"What Made Her Change"

Visit "[What Made Her Change](#)" on MotoLyrics.com

What made her change from my love to my used to be?
What made her wake from a dream that was only me?
Her last goodbye in my heart will forever ring
She walked away and there went my everything

What made her change from my love to somebody
new?
Was it because of the things I forgot to do?
What made it fade like the rays of the setting sun?
Somehow she changed and I lost my only one

I searched my heart to find out what I did wrong
Those pretty words all erased from our happy song
Without her love in my life makes the world so strange
My heart keeps asking what made her change
