Once I was happy as I could be but I let a gal make a  
fool of me  
And ever since she let me down the blues come around  
when the sun comes down  
Oh the blues come around oh the blues come around  
Lard the blues come around every evenin' when the  
sun goes down  
[ guitar ]  
As the sun is in the sky those doggone blues never  
make me cry  
But ever since she left this town the blues come around  
when the sun goes down  
Oh the blues come around...  
[ fiddle ]  
I've built my castle very high and then she went and  
said goodbye  
Ever since she tore it down the blues come around  
when the sun goes down  
Oh the blues come around...  
[ steel ]  
Once she called me all her own but now she's gone and  
I'm alone  
And every evenin' I'm sorrow bound  
Cause the blues come around when the sun goes down  
Oh the blues come around...  
[ guitar ]  
Oh the blues come around...
