I wanna live and love under the stars above
I wanna hold, hold you close to my heart
You gave me hopes and you, while I was sad and blue
And nothin's gonna keep us apart

I sang a lonely song until you came along
I'm a-headin' for the bright sunny day
And I'm tellin' you what this love will do
I wanna live and love always

I wanna shout hooray and praise the lucky day
That you came walkin' right into my life
I gonna change my plans 'cause I'm a different man
I'm through with all troubles this time

I used to feel so bad but now I feel so glad
I'm a-headin' for the bright sunny day
And I'm tellin' you what this love will do
I wanna live and love always

I wanna live and love under the stars above
I wanna hold, hold you close to my heart
You gave me hopes and you, when I was sad and blue
And nothin's gonna keep us apart

I sang a lonely song until you came along
I'm a-headin' for the bright sunny day
And I'm tellin' you what this love will do
I wanna live and love always
