Out on the corner standin' so bold  
Stood a little paper boy so hungry and cold  
And as the crowd came passin' by  
These words he said with tears in his eyes

"Please buy a paper from me  
So I can get me somethin' to eat  
My clothes are ragged, no shoes on my feet"  
Said the little paper boy, there on the street

"Out in this cold wide world all alone  
I have no place on this earth to call home  
I haven't had the chance that other kids had  
I have no mother, nor even a dad"

"So please buy a paper from me  
So I can get me somethin' to eat  
My clothes are ragged, no shoes on my feet"  
Said the little paper boy, there on the street

Early next mornin' as the crowd passed by  
The little boy was gone and they wondered why  
They started searchin' and then found him dead  
He died with the papers under his head

No one was there, his body to claim  
There he was lying but he felt no pain  
Now he has gone up to Heaven we know  
The little paper boy who died in the snow

There ya have it, friends
