Low and lonely, sad and blue
Thinking only of little you
Always trying to keep from crying
I'm low and lonely over you

Do you miss me? Say you do
Tell me darlin', tell me true?
Do you yearn dear, will you return dear?
I'm low and lonely over you

Low and lonely, weary too
You're the only true love I knew
Don't be long dear, you know it's wrong dear
I'm low and lonely over you

Low and lonely, sad and blue
Thinking only of little you
Always trying to keep from crying
I'm low and lonely over you
