Drift'n Just like a dog now*
Runnin with no place to go
I'm try'n to get over something
That did it's best to take my soul

[Chorus:]
Your gone, but not forgotten
And I see your smiling face
One day I'll be over you dear
When I'm done living in this place

Well I've been told down and thrown out of here
Shaking like a bag of bones
Looking for some peace of mind,
Until you let me go... go... go... go...

[Chorus:]
Your gone, but not forgotten
And I miss your smiling face
One day I'll be over you dear
When I'm done living in this place

I've played every card I have
Each time I had to fold
One day I might try to win back,
The love from me that you've done stole

[Chorus:]
Your gone, but not forgotten
And I see your smiling face
One day I'll be over you dear
When I'm done living in this place
