hillbilly joker
well now a mississippi highway heading to new orleans
i said everything is going ok
i got my hillbilly ride and my gal by my side
and were doing it all the way
just a cruzin' around from town to town
and were doing what we like to do
and if you dont like our hillbilly sound
well hey man go fuck you

i said hey man can you hear what im trying to say
well i like to kick back by the railroad tracks
and wait for that lonely train
i said hey man can you hear what im trying to say
were just some hillbilly jokers
who mite my some tokers
and were doing it all the way

im a little bit crazy on the roady side
and thats ok with me
cuz i smoke my weed and drink my wine
and im doing it everyday
they just dont understand that were having fun
and were doing it just they use to do
and if you dont like our hillbilly sound
well hey man go fuck you

i said hey man can you hear what im trying to say
well i like to kick back by the railroad tracks
and wait for that lonely train
i said hey man can you hear what im trying to say
were just some hillbilly jokers
who mite my some tokers
and were doing it all the way
