I'm all messed up and drivin around town
well my old trick she done had to kick my ass out
I'm raisin hell and tryin to find a life, livin fast and dyin
young it's my new style of life. Me and friends we like
livin on the run just because we're wild i guess they
don't like where we come from.
Hell we all like to get drunk and fall down all over town
you know that each damn day that we're livin we;re
damn right and rebel proud.
Well the wind keeps gettin colder but I never let that
hold me back
I've done the best that I could do to keep my life on
track.
Now I'm countin out quarters tryin to buy some beer,It's
so god damn lonley since your not here.
Me and my friends we like livin on the run, just because
we're wild I guess they don't like where we come from.
Hell we all like to drunk and fall down all over town and
you that each damn day that we're livin we're damn
right and rebel proud.you that every damn day that
we're livin we're damn right and rebel proud
