Ain't makin' no headlines here without you  
You do for me what no one else can do  
The love you promised me keeps growing stronger  
And so I'll carry on, yes I'm gonna carry on

I made a little side trip to Mexico  
They caught me with some acapulco gold  
So I'm in jail down here, ain't much I can do  
But pass the time and keep my mind on you

I ain't makin' no headlines here without you  
You do for me what no one else can do  
The love you promised me keeps growing stronger  
And so I'll carry on, oh I'm gonna carry on

Ain't makin' no headlines here without you  
You do for me what no one else can do  
The love you promised me keeps growing stronger  
And so I'll carry on, yes I'm gonna carry on

I ain't makin' no headlines here without you  
You do for me what no one else can do  
The love you promised me keeps growing stronger  
And so I'll carry on, I can carry on
