

Hank Williams Jr. "Fax Me A Beer"

Visit "[Fax Me A Beer](#)" on MotoLyrics.com

Well here we are smack in the middle of the 90's high
tech age
We got lasers, CDs, microchips, and fat free fat these
days
Well that's all fine but I got a mind that's changing to
fast for me
'Cause what I thought was new last month this month is
history
I got a brand new VCR, it's got 29, 000 functions
And I can't make the damn thing work so there goes
Petticoat Junction
That's when I got the best idea I think I had in years
I think I'll be cool and invent the tool that'll fax me a
beer

Would you all please fax me a beer
This invention is gonna set the whole world on it's ear
Yeah, makin' old whiskey that was riskey but this is all
in the clear
Sit back, relax, and punch ol' fax and I'll fax you a beer

Japan and Germany they got nothing on us you see
Why this is the latest and good ol' American high
technology
And when this hits the marketplace Uncle Sam will rule
the world
Well hold on cause I'm working on a machine that'll
faxes a real live girl

Would you all please fax me a beer
This invention is gonna set the whole world on it's ear
The old office code will never quite be the same
When it come cold and clear
Sit back, relax, and punch ol' fax and I'll fax you a beer

Would you like me to fax me a beer
This invention is gonna set the whole world on it's ear
The old office code will never be the same
When it comes out cold and clear
Sit back, relax, and punch ol' fax and I'll fax you a beer
Sit back and drank and give thanks to Hank and I'll fax

you a beer
