

Hank Williams Jr. "Future On Ice"

Visit "[Future On Ice](#)" on MotoLyrics.com

I got a past, that'll last me forever
And enough memories for one man's life
(That is true)
The one I love, she ain't comin' back ever
So it looks like I've got my future on ice

I got bottles and cans
That just left my hand
And a chill to just the right Fahrenheit

O love let me down
Now a truer friend I've found
Why I've got my future on ice

There was a time, she was my one and only
Until someone else caught her eye
Then for awhile, can you believe I was acting so lonely
Now I've got my future on ice

I got bottles and cans
That just left my hands
And a chill to just the right Fahrenheit

Yes love let me down
Now a truer friend I found
Now I've got my future on ice

O love let me down
Now a real true friend I found
Why I got my future on ice
